CHPIV participation in the Imperial County CHA/CHIP

The 2024-2028 Imperial County Community Health Assessment/Community Health Improvement Program (CHA/CHIP) is a multi-year effort to improve the health and well-being of Imperial County residents.

Community Health Plan of Imperial Valley (CHPIV) served as a major contributor to the CHA process. The 2024 Imperial County CHA revealed three Health Priority Areas: 1. Access to High Quality Healthcare, 2. Health and Safe Living, 3. Access to Behavioral Health Services. Priority Area 1 was further subdivided into two tracks: A. Access to Preventive Services and B. Healthcare Workforce Development. The three main CHA Priority Areas became the cornerstones of the 2024 Imperial County CHIP.

Since 2025, CHPIV has participated in the Imperial County CHIP. Specifically, within Priority Area 1, the CHPIV CMO serves as the co-lead for Priority Area 1, Track 2. Further, the CHPIV CMO leads a subcommittee of Priority Area 1, Track 2 that addresses Workforce Efficiency. Workforce efficiency seeks to improve the performance of the current Healthcare Provider Network. For example, one project involves improving network Provider appointment rates by leveraging care management resources to guide Medi-Cal Members to their appointments.

CHPIV also participates in Priority Area 3 Access to behavioral Health Services. CHPIV advises on Behavioral Health initiatives, including Behavioral Health services, outreach, and community involvement.
